Five-minute breaks between each topic will be provided. Further time will be allocated after the seminar to speak with the doctors and answer any further questions to assist with your neurological cases.

VNC SPEAKERS:

Scott Plummer, DVM, DACVIM (neurology)

Dr. Plummer began work as a staff neurologist/neurosurgeon at the VNC in 1992 and has been board certified since 1994.

Kim Knowles, DVM, MS, DACVIM (neurology)

Dr. Knowles became board certified in medical neurology in 1989 and joined the staff at the VNC in 2000.

Laura Stainback, DVM, DACVIM (neurology)

Dr. Stainback completed her residency in neurology and neurosurgery at the VNC and has been board certified since 2010.

Erich Spoor, DVM (Neurology Resident)

Dr. Spoor is a second-year neurology and neurosurgery resident at the VNC.

GUEST SPEAKER:

Jaime Sage, DVM, MS, DACVR

Dr. Sage, of MRVets, received her veterinary training at Texas A&M, and completed her residency at Ohio State. Formerly with IDEXX laboratories from 2005 to 2014, she has specialized in MRI. Dr. Sage has over 10 years experience reading MRI and has performed more than 100 onsite MRIs since 2011 in partnership with an MD radiology group. This hands-on experience gives her an appreciation for the challenges clinicians face in developing protocols, maintaining anesthesia, and working with animal owners who want answers fast. Dr. Sage resides in Austin, Texas.

REGISTRATION FORM:
